#### DR. H. S. LEHR

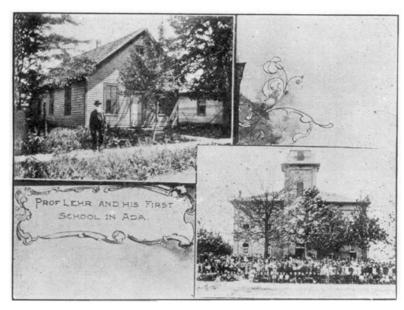

News of the death of Dr. H. S. Lehr, founder of Ohio Northern University, who died Monday, January 29, came as a shock and severe blow to all who had known him. Although his death had been expected momentarily for some time previous, never-the-less its full significance was difficult to comprehend. The tribute paid to him at the funeral, although of great magnitude, could not begin to measure the value of his life and work. Possibly the greatest tribute that could be offered to this great man would be to point out the thousands who have succeeded because of contact, either directly or indirectly with him. In his own last words, "I am ready! My life work is done and I am satisfied with the results!" he speaks the attitude and opinion of a vast multitude.

Henry Solomon Lehr was born at Weathersfield, Trumbull County, Ohio, March 1838. Being in limited circumstances his early education was rather neglected and did not begin until he was twelve years old. At that time he came under the influence of a great Ohio educator in the person of Alfred Holbrook, who exerted a great force upon the life of young Lehr. He attended Mount Union College in alternating years while teaching until the outbreak of the Civil War. In 1861 he answered Lincoln's first call and served with the 86th and 176th O. V. I.

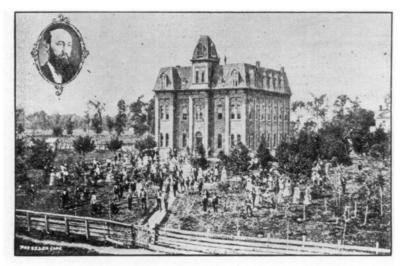

After the war, having decided definitely upon the teaching profession, he traveled through Indiana, Michigan and Ohio in search of a site upon which to erect such a school as he had in mind, a school where poor boys and girls could get a good education at a moderate cost. Ada, Ohio, seemed to be an ideal spot, and so in 1866, Ohio Northern University was founded. From that time the growth of the school was assured and Dr. Lehr soon collected around him a teaching force that could not be excelled so that in a comparatively short time the enrollment reached 3000 students annually.

What Dr. Lehr has done for Ohio Northern cannot be expressed in words. Today the school, with its thousands of Alumni practicing the recognized standards of all that he stood for, represents the magnitude of his life's venture.

#### HISTORICAL SKETCH

On April 9, 1866, Henry Solomon Lehr began his life work in Ada when he opened the spring term of the village school. The Ohio Northern University had its origin as a select school November 12, 1866, when Henry Solomon Lehr became its only instructor of fifty-six students. The select school lasted five years till the fall of 1871.

Subscriptions from the citizens of Ada erected the first building for the new school, known as the Ohio Northwestern Normal School, the first term beginning August 14, 1871. During the years of the select school only one Literary Society, the Ciceronian, was organized in 1866. The old Ciceronian Literary Society gave way to two others, organized August 18, 1871, and known as the Franklin and Philomathean Literary Societies. On September 3, 1880, a third Literary Society, known as the Adelphian Literary Society, was organized.

Besides the regular normal and college work penmanship, bookkeeping, science of government, parliamentary law,—not found in the old college,—and surveying were offered at this time. In the second year of the Normal School, English was added to the course. In the third year there were ten teachers and three Literary Courses: Normal, Scientific, and Classical. In the school year of 1875-76 the Normal School then located at Fostoria, Ohio, was bought by and incorporated in the Normal at Ada. In the ninth year, 1879-80, a Fine Arts Department was added. In the tenth year are found the new departments of Stenography, Mechanical Engineering, Architectural Drawing, and Elocution. The increase in enrollment over the previous year was forty-five per cent, the result of increased facilities. In the year 1883-84 was started the course in Civil Engineering and Architecture.

In the spring of 1885 the school expanded its name in keeping with its growth, and on May 21, 1885, it became a corporate body under the name of Ohio Normal University in order that it might lawfully confer degrees. In that year the College of Law was added and in 1886 the College of Pharmacy, with Charles Ashbrook as Dean, was established. Wonderful strides were made during the school year of 1885-86.

In 1884-85 the military department was begun and three companies were organized. The United States Government recognized the institution and appointed Lieut. Roberts as commandment.

The name of the school was changed on July, 28, 1903, to Ohio Northern University, thus preserving the old initials of O. N. U. In September, 1898, the Central Ohio Conference of the Methodist Episcopal Church contracted to buy the University but the sale was not completed until in August, 1899. Dr. Leroy A. Belt succeeded Dr. Lehr as President of the school in 1901. Dr. Belt resigned in 1905 and Rev. Albert Edwin Smith was elected. He had many difficulties to solve but won back the old friends of the school, and Dr. Lehr was elected president emeritus.

Northern has gone on to greater things, and with the added facilities that the present building program will give, the prospects for Ohio Northern were never brighter.

# PAN HELLENIC COUNCIL

A new creation has made its appearance in the school life. The Pan-Hellenic Council is here to stay. At the meeting of the trustees of the University in the Spring it was decided that something was needed to bind the fraternities and the University closer together in order that a mutual understanding might be reached in respect to fraternity regulations as laid down by the trustees and University authorities. In order to meet this need the Pan-Hellenic Council came into existence.

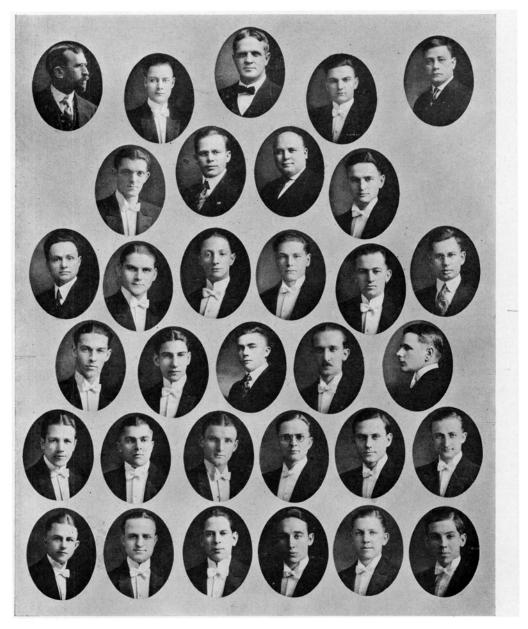

The Pan-Hellenic Council has taken on a larger scope of procedure than at first planned. Not only is it established for the purpose of settling differences which might arise in regard to school and fraternity regulations, but also is the medium through which interfraternity questions are to be decided.

In order that the work may be properly carried on the council has adopted a constitution by which its actions are to be governed in a permanent, regular manner with its purpose clearly given in the preamble of the said constitution, to-wit: In order to form a more perfect Brotherhood and to establish a closer union and bond of fellowship between fraternal organizations at O. N. U., and to advance the standing of the University by increasing the school spirit of the student body and in assisting the furthering of all programs for the betterment of the school and to bring about a better understanding between the fraternities and the authorities of the school, as well as to settle all disputes and differences which may arise, we, the members of the Pan-Hellenic Council of O. N. U. do stablish this constitution and these by-laws to govern our organization." Thus far the Council has confined its activities to becoming a permanent organization with a permanent foundation. However, even now the good derived from such an organization can be seen by all concerned and the future possibilities are unnumbered.

The Council is formed by a chairman, appointed by the President of the University, and an active member from each national fraternity and advisory inactive members from the locals. Attendance is compulsory with the suspension of the fraternity as the penalty for the failure to have a representative at the meetings. The meetings are held monthly with special meetings called whenever such are deemed necessary. The entire program of the council is efficiency and to this end the proceedings are held. Should success smile on the council, petty fraternity jealousies, rotten inter-fraternity politics and such other grievances that are at the present a source of much embarrassment to our school's spirit will vanish and the true college spirit will re-enter.

## Y. M. C. A.

The opening of the school year in September ushered in with it the beginning of a new era for the student Y. M. C. A. Our new employed secretary was on the ground a week early and under his advice and encouragement the new organization was perfected and the policy undertaken. The result of the year's work has been the attainment by the Y, to the position of respect which is due a Christian religious and social organization on the campus.

The success of any Y. M. C. A. cannot be measured by the number of "big things" which it "pulls off" during the year, but rather by the number of men who are actively interested and receiving the training which results from such interest. Through the system of committees and promotion force, fully one hundred students have contributed both time and energy in the promotion of the program.

Devotional meetings held once each week have been extremely interesting and profitable to the large number of men attending. Open forum and discussion groups have had interest for still others.

The social committee has been wide awake and mixers and stags have been held with an average attendance of two hundred and seventy-five students. Much comment has been received from Ada citizens for the great Hallowe'en celebration held at the armory which attracted fully fifteen hundred people.

The rooming proposition for the students has been handled by the secretary and rooms for two-fifths of the students secured each term. Employment has been found for the men to the aggregate of nine hundred dollars in value.

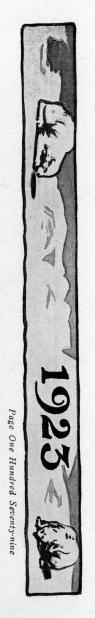

Considerable extension work has been done in the community, a Father and Son banquet was held and two hundred fathers and sons enjoyed themselves at the first annual community affair of its kind in Ada. Under the supervision of the secretary a Hi-Y club was formed and is growing nicely.

At the spring election Donald Sharp succeeded Howard Meyer as president; the new cabinet has been organized and more interest is being shown as we close the year than any other time in Y history at Northern.

## Y. W. C. A.

The Y. W. C. A. has enjoyed a most prosperous year. The cooperation of the girls has been splendid and the response unanimous, and we have enrolled as members 90% of the girls of the University. Our devotional meetings, held every Wednesday evening are made interesting and the appreciation of the girls is shown by the average attendance of sixty or seventy at these weekly meetings.

The Y. W. C. A. has been successful in every phase—money has been appropriated for home and foreign missions, we have made good on financial matters, and have brought the girls of O. N. U. into closer contact with the higher things in life.

In the fall a play was given by the Y. W. C. A. girls; near Thanksgiving a Thank Offering was asked from our absent friends interested in the Y. W. C. A. and the girls responded most nobly. Just before the Christmas season there was held a Japsnese Bazaar and candy sale;—each bit of work entered netted good results.

Last summer we sent three delegates to the Y. W. C. A. Conference at Eagles Mere, Pennsylvania,—namely, Edna McPheron, Viola Cox, and Miriam Ewing, and they brought back great inspiration as leaders for the year.

In October was held a conference of the Y. W. C. A. Cabinet Members of Associations of Northern Ohio, in Tiffin at Heidelberg University, to which we sent members of our cabinet.

Welcome Hart, our Home Missions Chairman has been doing extension work among the young girls of McGuffy and has met with decided success, the girls appreciating her efforts among them very much.

We express our hearty appreciation to all of our girls who have cooperated, to make our Association a vital factor for good and extend our best wishes for the in-coming cabinet who will carry on the work of 1923-24.

## STUDENT VOLUNTEER GROUP

Samuel Bruner		.President
Edna McPheron		Vice-President

E. Gumban	Denutat	ion Chairman

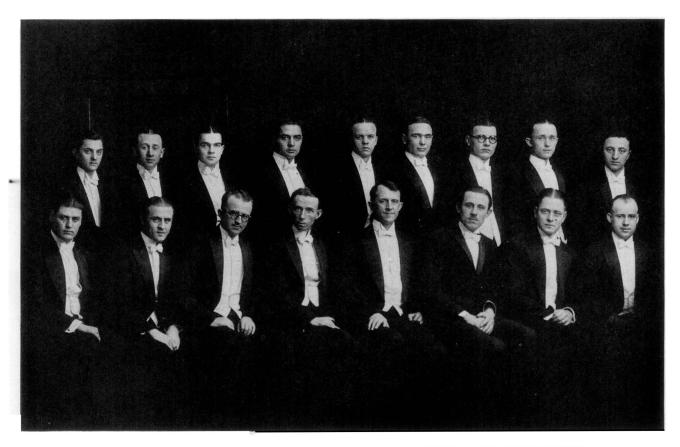

The year just closing has been without doubt the most successful year in the history of the local student volunteer group. As a word of explanation for those not familiar with the organization, the student volunteer group is composed of those students who have made foreign missionary work their aim in life. The work on our campus has been combined with the life service group and together they have a membership of twenty students.

Every Tuesday evening between six and seven this group meets in the Y. W. C. A. room. This year two mission books have been reviewed; the last term was devoted to the Mt. Holyoke plan of study and much interest was manifested as the conditions in the various countries were brought to light. These courses of study, while pursued primarily from the missionary standpoint have been extremely valuable because of the educational benefits which are derived.

A poster exchange has been instituted and posters of missionary activity made and exchanged with three other schools. Through deputation team work, pastor of neighboring churches have been given assistance. These teams are organized with four students each and are ready to go out, upon being called, to hold services in the churches.

The most outstanding accomplishment of this group and an event which brought great credit to the University was the entertainment of the annual Student Volunteer Conference of the Northern Ohio Union. This conference was held on our campus March 9-11; it was attended by one hundred and seventy-five students representing fourteen colleges of Northern Ohio. In the group of leaders and speakers, which numbered twenty, were outstanding missionaries and Christian workers of every denomination having a mission board in the union, men and women, some of whom have spent their whole life time among the people of other lands. Much good both in our own and in other schools has resulted from this conference. We feel just a little proud because of the way in which the conference succeeded as two of the most outstanding leaders expressed that it was the best conference they had attended.

The group will again be under the leadership of Sam. Bruner as president, and because of the inspiration received at the conference we are looking forward to greater things next year.

## AMERICAN ASSOCIATION OF ENGINEERS

The Ohio Northern Chapter was established Eeb. 24, 1919, thru the efforts of C. E. Drayer, National Secretary, who is an O. N. U. Alumnus, with a charter membership of eight students.

It affords the means whereby students can interchange information that is so essential to engineers, influences legislation for the protection and advancement of the profession, stimulates and encourages the engineer to public service, and promotes the social and economic welfare thru a spirit of co-operation.

Materialization of the A. A. E's plan to maintain its own clubrooms was realized this year when rooms were obtained over the Liberty Bank.

# AMERICAN SOCIETY OF MECHANICAL ENGINEERS

In the Fall of 1920, the Mechanical Engineering students who were members of the original O. N. U. Society of Engineers, realized the necessity of having an organization that represented their own department. So with the aid of Prof. Brakes, who was at that time the head of the Mechanical Department, they established the Northern Society of Mechanical Engineers.

This however was not sufficient to meet the increasing demand and growing prominence of the Mechanical Engineer in every field of industrial activity which necessitated the influence and intimate association with a national organization. Thru the untiring efforts of Prof. Campbell the local society was accepted as a Student Branch of the American Society of Mechanical Engineers during the fall of 1922.

The object of this society is to promote the arts and sciences that are connected with the Mechanical Industry thru an interchanging of ideas at technical discussions which are held bi-monthly.

# AMERICAN INSTITUTE OF ELECTRICAL ENGINEERS

The Electrical Engineering students of O. N. U. were granted a student chapter of the American Institute of Electrical Engineers on Feb. 12, 1912. It is distinguished with the honor of being the first student chapter of the A. I. E. E. in Ohio.

The object of the organization is to promote co-operation and to exchange ideas on modern developments of this science, thru the presentation and discussion of papers read before the members at their regular bi-monthly meetings.

The benefits derived from being a member of this society are the honor and stimulation resulting from direct relationship with the national organization and association with those prominent in the electrical profession.

# THE NORTHERN SOCIETY OF CHEMICAL ENGINEERS

The Northern Society of Chemical Engineers is the youngest society in the Engineering College, having been organized in 1919 as it represents a department of recent origin.

Prof. Sleesman of the Chemical Department, was very intrumental in organizing this society and to him much credit is due. He realized the need of such organization to span the gap growing out of this department in its effort to cope with solving the increasing problems of the commercial world by a method not given in the curriculum.

Application for Affiliation with the American Institute of Chemical Engineers has been made and the establishment of a Student Chapter here will only be a matter of a short time.

The seventh year of the history of the Ohio Northern Educational Association has proven a very successful one in every respect. Meetings were held weekly which kept alive the objects of the organization. A keen interest was displayed by the different members, who greatly profited from the general discussions and addresses which composed the programs. Such an organization is indeed a credit both to the Institution and to the profession it upholds.

It is not an exaggeration to say that during the summer term the Adelphians were the most active organization in the school and every member is rightfully proud of our accomplishments. Beside splendid literary programs and the success of our baseball team it is worthy to note the renovation of the literary hall, which was done at great expense of labor and money. Celebration of this achievement was a fitting conclusion of a successful term's work. It was attended by a large number of visitors, including prominent old Adelphians.

During this term many new names were added to the Adelphian roll of honor.

#### DEBATE

The Ohio Northern Debate Association has enjoyed, this year, one of the biggest and most successful seasons in the history of the organization. The interest among the debaters was keen, the contests were the best, and the support rendered by the entire student body was especially worthy of note.

Following th practice debates which were held regularly throughout the Fall quarter the following men were chosen to carry Northern's standards:

Affirmative

RALPH ROPP, Captain
HOWARD VANNORSDALL
EDGAR KENNEDY
DONALD CODDING, Alternate

Negative

CHARLES B. TAYLOR, Captain HUGH A. STALEY DONALD SHARP D. R. BENDURE, Alternate

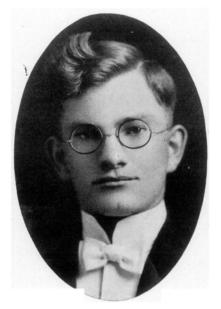

The proposition for intercollegiate debate, as selected by the Ohio Debate Conference, was: Resolved, That a parliamentary cabinet form of government, based upon the principles of the British system should be adopted by the United States. This proved to be a live absorbing question and was everywhere greeted with great interest.

On the night of Feb. 2, Northern's affirmative team defeated the Bluffton negative team on the home floor by a unanimous decision. On the same date our negative team lost on the Bluffton platform by a two one decision. On Feb. 16, the Wittenberg negative team lost on the A'da platform by an unanimous decision, while our negative team lost at Springfield by the same score. On March 16, Northern's negative team defeated Ohio Wesleyan's affirmative by a unamious decision at home, while on the same night, our affirmative lost to Ohio Wesleyan's negative at Deleware, by a two to one decision.

It is firmly believed that the splendid spirit of enthusiasm created this year in forensics marks the beginning of a new era in inter-collegiate debate for Northern. Altho we lose the major part of this year's team through graduation we leave a firm basis from which we predict a successful future for our debate association.

J. O. NEWTON, D.D.S.

Director of Physical Education and Coach of Athletics

### J. Otto Newton, D.D.S.

Ohio Northern prizes highly the work of the Director of the Department of Physical Education and Athletic Coach in his unceasing efforts to reach the highest standards in athletics and physical education in **this** school during the past year. Dr. Newton is behind our teams striving to place them at the top of the list in every phase of athletics.

In 1921 Dr. Newton came to Northern to be the Director of the Department of Physical Education, but upon the departure of Coach Bolen at the end of the Spring term, 1922, the additional responsibility of Athletic Coach was bestowed upon him.

While at Ohio State University Dr. Newton earned his letters as an athlete and can still show that he knows the game. He graduated from O. S. U. in 1904 with the degree of Doctor of Dental Surgery, but at the time O. N. U. called him he was engaged as Coach at Heidelberg University where he made a remarkable record.

Until this year Northern never had a track team, which task Dr. Newton took upon himself to produce. His actions must be commended for the way he has worked to get a real athletic field and equipment which are necessary for good work.

We are with you "Doc" and hope you will continue to do your best for Northern.

## Anthony H. ("Pete") Berta

Both freshman football and basketball teams were under the able supervision of Mr. Berta and made a very creditable showing.

Pete, whose home is in Duquesne, Pa., entered Ohio Northern in 1918, graduating from the Engineering Department with the Class of 1922. His record, both as a student and as an athlete is certainly an enviable one. His athletic record shows him to have won letters for three years in football, basketball, and baseball, serving as captain of the latter two teams during his Senior year.

Berta is a prominent member of the Varsity "N" Society and Theta Nu Epsilon Fraternity.

## Ralph. L. Stewart

In the Department of Physical Education we find one of O. N. U.'s ablest men in the person of Assistant Instructor Ralph L. Stewart. All who come in contact with this type of work realize the immense value of the physical training afforded under the guidance of an experienced and able bodied instructor.

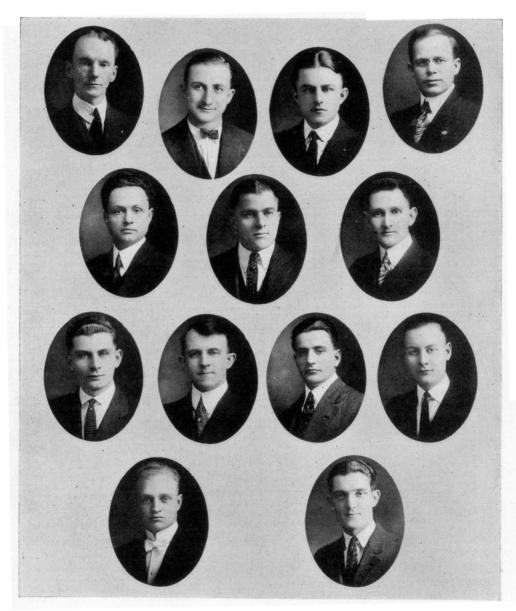

Mr. Stewart entered the Law College in 1921, coming here from Marietta College. Having had much experience as Y. M. C. A. athletic instructor and as Boxing Instructor at Ohio State University, we can have no doubt as to his training and ability.

### **FOOTBALL**

1 1

L. C. Sleesman, Faculty Manager

The 1922 football season found Northern with a new coach and a comparatively green squad. However Dr. Newton succeeded in establishing his system of play and instilling into his men the spirit of good sportsmanship, so that out of the unfavorable circumstances there evolved a team, which, although its Conference rating was not very high, acquitted itself in such a manner entirely worthy of praise and deserving of credit.

After handily defeating Bluffton and Bowling Green Normal on successive Saturdays, the Polar Bears put **up** a magnificent fight against Wesleyan, state champions, in the best and most bitterly fought struggle ever played on a Northern field. Wesleyan emerged with a margin of fourteen points, one of the closest scores to which she was held during the entire season.

Only the hardest kind of football luck was responsible for Northern's returning on the short end of a 6-0 score at Oxford, after outplaying the Miami warriors for over twothirds of the game.

Dr. Newton had found his team by this time and proceeded to check up the victories over Western Reserve before a magnificent home-coming crowd, and over our old rival, Heidelberg, in the latter's back yard at Tiffin.

Injuries then hit the squad hard, and were largely responsible for defeats at the hands of Akron, Case, and Wittenberg, successively.

Never however in any defeat did the Polar Bears stop fighting or cease their efforts, and never in any victory did they take unfair advantage of any opponent. The true spirit of the sport was evident and characteristic of the squad at all times, and this is rather to be desired than a conference championship.

With another season in the offing, with Dr. Newton and his principles firmly established and the spirit which so animated the squad last fall, again in evidence, with the seasoning of the old material, and the added vigor of the new, we look forward to the 1923 season in a spirit of hopefulness and confidence, determined to stand **up** by the squad, to "Crow gently in victory," and "Own up, put **up** and shut **up** in defeat," for these, says Holmes, are the qualities of a true sportsman.

Lewis

EVANS

HALEY

#### CAPTAIN LEWIS

"Whitey," who captained the Polar Bears, finished his second season in football with plenty of well earned honors. From his position as tackle, his fighting spirit was an inspiration to his teammates and they followed their leader through victory and defeat with the same determination to give all they had.

#### **EVANS**

Playing end, Evans showed lots of stuff. His ability to receive passes was remarkable, acd on the defensive, few plays went around his end. Evans will be with us another season.

#### HALEY

"Bart" as fullback was a real bear at plunging the line. Few Conference lines were able to stop his terrific plunges to any great degree of success, and he could be counted upon for those last two or three yards.

**SMITH** 

Kuszmahl

SHANK

#### SMITH

As a secondary defense man, "Smitty" was in his glory. Few plays ever penetrated the Northern territory **on** his side of the line. His offensive work was by no means a small factor in net gains as evidenced by his ability to hit the line.

#### KUSZMAHL

"Kuzy", a substitute half, showed good stuff last fall. His fighting spirit and determination won for him the coveted "N" in his last year at Northern.

#### CAPTAIN-ELECT SHANK

"Jew," quarterback, completed his second year of a Varsity football with an added recognition of his field generalship in actual combat. This won for him the captaincy of the 1923 Polar Bears.

WANDER

ADLED

POLING

#### WANDER

Wander proved to be a veritable batteringram at his position of fullback. Fans will never forget the great games he put up, especially at Akron and Heidelberg. Soccer will be back again next year.

#### ADLER

Potsy did not become a member of the squad until late in the season, but proceeded to establish himself at once as a very valuable player. He was pulled back from tackle to do the greater part of Northern's punting.

#### POLING

"Khaki" played both at tackle and at center and was a very valuable line man. He will perhaps take Grabil's place next season.

#### MATHENY

Matheny was always in there fighting, yet he came through with the remarkable record of never having to leave the game because of injuries. He will be back next year.

#### **FLORIDA**

#### TRYING TO STUDY

By "MAC" REED

Though the cold, wet dew is falling from the star-lit'midnight sky, though the night birds soft are calling, and the moon has risen high. Though the world about me slumbers, yet for me there's no repose, I must sit here juggling numbers, cramming English verse and prose. I must read the lors of nations, read of rulers small and great, I must dabble in equations which for me will not equate.

And though time is speeding, speeding, yet I cannot seek my bunk. I must sit and keep on reading to forestall each little **flunk**. So I sit and turn the pages of each ancient dusty time, cramming wisdom from the sages in my weak, aching dome. And my midnight oil is burning giving forth a feeble glow, while I sit and study, learning all the things I ought to know.

#### "MY IDEAL MAN"

I've often wondered and wondered—If there's a man in this world for me, And many a time I've pondered—On just what kind he should be. I want a man who is loyal, honest, true and kind, One who will always love me and forever and ever be mine. One to whom I can tell my troubles—And in whom I can share my joys. One who loves little children, dear little girls and boys. I've often seen when I dream at night, yes time and time again, In my beautiful, beautiful dreams, my own Prince Charming Man. I dream of a house where the sun light glows—and dear little children play—And where my love and laughter reign—all through the sunny day, Sometimes I think I can see my love—So handsome, young and bold. Then again my fancy changes, and happily we'll grow old—And of all the things in this world, our love is as true as gold—And our love will ever be stronger as we go to our home above.—"A Co-Ed."

Dr. Burris (in bible study class)—"Did any of you ever drink the water in Sulphur Springs at Campus of Ohio Wesleyan? It smells worse than rotten eggs."

Kramer—"Yes, and tastes worse."

Prof. Gray—"Mid-terms this week."
Luke Vanhorn—"Next week, Prof."
Prof.—"No, Luke, this is the sixth week, you must have slept one week."

"Jew" Shank—"A crow can count up to five, Tracy."

"Five of us went in a corn field, four left and I remained, but the crows wouldn't come in when I was there."

"Another fellow stayed and five of us left the field and the crows went in." Tracy—"Didn't you ever know that a crow doesn't like a "Jew?"

Mr. Storer—"No, sir. My daughter can never be yours."
"Jew"—"Quite right, sir. She can not be my daughter. I only wanted her to be my wife."

Adam—What kind of a dress did you wear last week, Eve? Eve—Fig-leaf., dearie.

Adam—No, dearie, I think it must have been poison-ivy...

Mrs. Moreland (to Larry coming from class)—"Oh Larry, I made the nicest raisin pie for you today, but the dog slipped in the pantry and ate it all."

Larry—"Oh, that's all right dear, I can get another dog."

#### "ATTENTION MEN"

There's something kind of pitiful, About the man that growls-Because the sun shines down too hot, Or else the west wind howls, Who never eats a meal but what-The cream ain't thick enough,
The pudding ain't been sweetened right— Or else the steak's too tough. Poor chap, he's just a victim Of fates' old and meanest trick, You'll find by studying mules and men-They don't need brains to Kick .- "A Fair Co-Ed."

Everyone was meant for some-one No one likes to live alone Everyone can find a loved one Someone they can call their own.
Somewhere in the world there's waiting Someone who'll be fond and true, Every one was meant for someone, Maybe I was meant for you. - "Shorty" Barrick.

#### Advertisement

"Rooms with steam heat, for two gentlemen or four University students." Wagner—"I did."

Prof.—"A real one?"

J. A. B.—"No, an informal one."

#### GETTING HIM GOING

Mr. Warren (from upstairs)—"Ethel, isn't it time for the young man to go home?"
"Jean" Neuman—"Your father is a crank."
Father (overhearing)—"Well, when you don't have a self-starter a crank comes in mighty handy.'

#### ANOTHER RECOMMENDATION

"Tony" says "Golf not only improves your general health, but enables you to understand the jokes in the comic weeklies.

#### A GLEAM OF HOPE

"Mike" (roused by his wife)—"What's that you say? A burglar?"
Mrs. Mazzula—"Yes. Fancy a burglar calling on us!"
"Mike"—"Let him climb in; then I'll give a yell and it may make him drop something

he has stolen elsewhere."

#### THIS IS NO JOKE

In Maryland, we read that it is illegal for a woman to go through her husbands pockets at night. "In Ohio it is only a waste of time," says Mrs. Johnson.

#### "OUCH"

Prof. Fairchild—"Do you know where shingles were first used?" "Eddie" Garner (in Geology class)-"I'd rather not tell."

#### THE POWER OF LOVE

Prof. Harper (sharply)—Take your feet down from the top of that seat." Nichols (just married)—"Yes, my dear."

#### THE HIGHER JOURNALISM

"Dave" Kane—"I have come to interview you, Dr. Smith."
"Prexy"—"Well, go back and write your interview and let me see it."
Kane—"Here it is."

Mrs. Davis—"I would think you would be ashamed to beg in this neighborhood." Tramp—"Don't apologize for it mum, I've seen worse."

#### WHY BUSINESS IS NOW DULL

"I've got a lot of things I want to talk to you about, dear," said Mrs. Weber. That's good," answered Prof.; "you usually want to talk about a lot of things you don't have."

#### SOFT ANSWER TURNETH AWAY WRATH

Mrs. Neiswander—"My dear, you have forgotten again that today is my birthday." Prof.—"Er—listen, love, I, know I forgot it, but there isn't a thing about you to remind me that you are a day older than you were a year ago."

#### SELF-DEFENSE

Georgia — "I'm afraid, 'Mac,' that I'll never see you in heaven." McCorkhill — "Great guns! What have you been doing now?"

#### ALL CLEAR NOW

"Money is the root of all evil." That is the reason we all try to dig it up.

#### TOUGH ONE

"Do you call that a beef steak? It makes me laugh," said "Jerry." "Dean"—"I'm glad to hear it, some people swear."

#### TRY THIS

"Jew" Poling (in Lima) - "Waiter, here's a half-dollar for you."

"Thank you, sir. Did you wish to reserve a table?"

"No. In a few minutes I shall return with two ladies, and I want you to tell us that every table is engaged."

#### MOONSHINE VISIBILITY TEST

One moon—pretty gaod; two moons—the real stuff; no moon—wood alcohol.

#### A GREAT HIT MISSED

Lane—"All ready, run up the curtain."

Koehler—"Say, what do you think I am, a squirrel?" (heard during "Gypsy Rover practice).

#### A RELIC

. Miss Young—"What is this dark hair doing on your coat?"
"Bill" Schaum—"This is the suit I wore last year. I expect the hair has been on it ever since you were a brunette, dearest."

#### A PAIR OF SUSPENDERS

Harry Poulston—"Why not give me a reply now? It is not fair to keep me in suspense." "Duckie"—"But think of the time you have kept me in suspense."

#### HIS CHOICE

"Chic" Harper (English Professor)— "Luke, why are you not prepared?"
"Luke" VanHorn—"I am prepared; you said, 'read Twelfth night or What You Will,' so I read 'The Beautiful and Damned.

#### FAMINE THREATENED

Dr. Smull-"I've had a hard day at the office, dear, and I'm hungry as a bear. Is dinner

ready?"
"No, love, I'm afraid we'll have to go to Prexy's cafeteria tonight. I've broken the

#### A CHANCE TO BOOST

"What is your object in telling people you are thinking of retiring as being President of O. N. U.?"

"I consider it desirable," replied Dr. Smith, "to offer the suggestion so that my friends can show how difficult it would be for Ohio Northern to get along without me.

#### LUCKY LINES

Miss Jones—"As I am playing an old lady in the piece, I shall have to have wrinkles painted round my eyes and mouth."

"Dick" Overmeyer-"Ah, they will indeed be lines cast in pleasant places."

#### DISAPPOINTING CUSTOMER

"Kuzzie"-"But you guaranteed this watch to last a life-time." Clerk - "Certainly; but you looked pretty sick the day you bought it."

#### EVERY DAY, IN EVERY WAY

Miss Wilson (to her little niece)—"Yes, with the new thought one can accomplish anything. For instance, I don't have to rouge, I simply think a flow of color into my cheeks!" The Niece—"Gracious! I'm glad I don't have such thoughts as that!"

#### ALL MADE CLEAR

"Butch" Guilinger - "Your honor, I was not intoxicated."

Sousley—"But 'Sam' Ellis says you were trying to climb a lamp-post."
"Butch"—"I was, your honor. A couple of cerise crocodiles had been following me around all day, and I don't mind telling you that they were getting on my nerves."

#### EXAM'INATIONS

When you can't sleep at night, can't eat during the day, can't even get interested during the day in a Rodolph Valentino screen production, then you may be sure that the deadly monster, "Examination," has you in his clutches. He is a sly old fellow, creeps upon you before you are aware that he is anywhere near. You return from a glorious vacation, and find it hard to concentrate on any school work, for it is much, more pleasant today—dream about the new man back home, who has moved in right across the street, your best friend's announcement party. For days you live on the good times you had, and at night you close your eyes to dream of—well, your father or mother.

Then some night, when your roommate has pulled the window away down from the top, and you wake **up** half frozen, you have a funny, cold feeling inside of you as well, when **you** remember the approaching doom. Right then and there, you take a silent oath to start reviewing as soon as the lights are turned on in the morning. But when morning dawns there are so many other things which you like to do that you just can't get started. Time seems to pass in leaps and bounds, and before you realize it "Examinations" is on the threshold of your door. You grab your textbooks and hurry to the Library, (anywhere, just so its quiet) but here you face dozens of other agonizing souls, just as scared as you are. So then you study, and by the time "Examinations" step on your threshold, lay down your books, close your eyes, and murmur, "I am ready."

Following this are perhaps, four days of torture, and at last you are free to worry over just how much, you did know. Then there dawns the day when you find that you made almost all Ex's, and you decide that old "Examination" is a jolly old fellow after all. top, and you wake up half frozen, you have a funny, cold feeling inside of you as well, when

#### THE LEGAL WAY ROUND

A lawyer thus illustrates the language of his craft: "If a man were to give another an orange, he would simply say: 'Have an orange.' But when the transaction is entrusted to a lawyer to be put in writing he adopts this form: 'I hereby give and convey to you, all and singular, my estate and interests, right, title, claim and advantages of and in said orange, together with all its rind, juice, pulp and pips, and all rights and advantages therein, with full power to bite, cut, suck and otherwise to eat the same or give the same away with or without the rind, skin, juice, pulp or pips, anything hereinbefore or hereinafter or in any other means of whatever nature or kind whatsoever to the contrary in any wise notwith-And then another lawyer comes along and takes it away from you."-Boston Globe.

#### WE LIVE TO LEARN

"I never knew till I got a car," said Dr. Burris, "that profanity was so prevalent." Poling—"Do you hear much of it on the road?" "Why," said Dr. Burris, "nearly everybody I bump into swears dreadfully.

#### SING SINGERS

Miss Dehus (in Botany class) - "What kind of birds are frequently kept in captivity?" Ropp-"Jail birds."

Several Co-Ed's on the campus remarked that they preferred the youth with the "cookie

duster" mustache to the old gent "who has an awning over his lunch counter."

Maybe so—maybe so—but—It takes shaggy old Dudes like that to keep Prexy's "Persian Kittens" amused while at **O.** N. U.

We understand that the "Review" is going to hold a spelling bee—well, the Editor of '23 Annual can very tactfully handle Bee, "?" but for some reason he has never been able to tame "one."

#### GENTLE FOOTBALL

Miss Blaine—"Oh, isn't it awful? Horrible! Why, they will kill that man underneath." "Doc" Ritchie—"Oh, he doesn't mind it. He's unconscious by this time."

#### ALMOST

Prof. Binkley—"Where was the Declaration of Independence signed?" "Jew" Shank (after waking up)—"At the bottom."

Dr. Burris—"Who was Joan of Arc?"
"Hess" Florida—"Noah's wife."

Mrs. Davis is to speak on what's wrong with the "movies." None is more qualified to speak with authority unless, perhaps, Fatty Arbuckle.

#### WHICH ARE YOU

A Pillar, or a Sleeper?
A Wing, or a Weight?
A Power, or a Problem?
A Promoter, or a Provoker?
A Giver, or a Getter?
A Goer, or a Gadder?
A Doer, or a Deadhead?
A Booster, or a Bucker?
A Supporter, or a Sponger?
A Soldier, or a Sulker?
A Server, or a Sorehead?
A Worker, or a Worry?
A Friend, or a Faultfinder?
A Helper. or a Hinderer?

The average person has a deplorable ignorance of trees, but perhaps all are not troubled by the peculiar annoyance wihch visits a friend of ours. Doc. Ritchie can only tell a birch tree, and Dean Huber says, and then only when there are no sycamores around.

My girl and I went to a party the other night; she made an impression the minute she went into the room—sat down on a man's hat.

Dr. Thomas Jefferson Smull: "Well, how do you like Pittsburgh Coach?" Dr. J. Otto Newton: "Oh, it 'soots' me alright."

Mrs. Wilson—"Did Harold kiss you last night?"
Ruth—"You don't suppose he came all the way from Canton just to hear me sing."

You can imagine you have a bank account but don't spend too much time drawing on your imagination.

He—"Lucille, you are the breath of my life."
She—"Oh, no! Eddie, you couldn't hold your breath so long."

#### THE REAL PRICE

Steinberg entered a Lima jewelry store and asked the price of a watch he had seen in the window. The jeweler told him it was \$10.00. He was heard to say to himself, "He says ten, he means eight, he'll take six, it's worth four, I'll give two."

#### FOR "BLUES"

To those who frequently feel blue, Some good advice Permit us to prescribe for you; No squills, quinine, or catechu, But something nice:

Read one joke, don't skip a word; Now read another—then a third. Digest it—'twill do you good— Then laugh where laughing's understood. Should you by laughing thus "grow fat," We will make no extra charge for that.

One-half, the Student's hard trials might With laughter be adjusted; And he who laughs wit hright good will Need seldom be distrusted.

Pritchard—I don't feel very well this evening; I, fell out of bed last night. "Jerry" said I must have slept too near where I got in, but I didn't; I slept too near where I fell out.

As we get "Prexy's" attitude on evolution, it gives him no pause and his ancestors no paws.

> Give us a Co-Ed who doesn't powder nor rouge, Nor wear radio boots instead of shoes.

Ye gods! They're getting bolder and bolder, They've got so now they use slang worse than a soldier.

However, anytime you notice something new about the male "sweeties" besides bell-bottomed trousers and Bill Frederick haircuts, let us know, girls, and maybe we can allow the Co-Ed's a last word.

Mrs. Gallant-"How tired your eyes look this morning, Ruth." Ruthie-"Yes, Mother dear, I rolled them so much last evening, Glen was over."

The most original, fresh, ingenious composition of the year, by Lawyer's Jazz, is "Chinese Billikens," by Archangelsky, from Don Ishman's latest edition of the "Chauve-Souris."

#### TELEPHONE CHATTER

Butch calling Jimmy-"Can't you come down tonight?" Cooper, answering Guilinger—"Oh, I can't. I'm washing my B. V. D.'s."

And just here the operator accommodatingly remarked—"I'm ringing them."

#### CHANGE OF FAITH

Irene had for a long time been praying for a baby sister. While home on her Easter vacation her Mother said: "our new pastor's wife has a new baby."
"How do you know?" asked Irene.

"It's here in the paper," her mother replied.
"Please read it to me," and her mother read, "Born, on March 29th, to the Rev. and Mrs. John Smith, a daughter."

Irene was quiet for a minute, lost in thought, then she said: "I'm going to stop praying and advertise.

Miss Fairchild—"My friend takes up Spanish, French, Italian, Hebrew, German and Scotch.'

Gallapoo — "Where does he study all that?"

Margaret — "Study? He doesn't study. He runs an elevator."

Tillie Snedden had ordered some chicken soup in the College Inn. He tasted it and said to "Dean": "What is this you have brought me?
"That's chicken soup," was his reply.
"Well, there is no chicken in it."

"No, there isn't; there ain't no dog in dog biscuits, either!"

Prof. Carpenter (in an engineering class)- "What's a dry dock?" Vincent (just awakening) — "A physician who won't give out any prescriptions."

#### SO ANXIOUS TO STUDY

Two Delta Sigs stretched and yawned. "What shall we do tonight?" said "Knappie." "I'll toss up a coin for it," replied "Busick. " If it's, heads we'll go to the "movies," if it's tails we'll call on Ruth and Edith; and if it stands on edge we'll study."

Never judge a girl by her curls; they may be false. J. A. B. Wagner says his girl is not old, but she's got wrinkles in her face so big that flies go in them to hide.

AS the test of a man is his work, so is the supreme test of a girl the quality, not the quantity, of love she inspires.

Nolan Smith-"I can't understand why my girl shook me."

"Jew"—"What was that you wrote to her the last time?"
"Smittie"—"All I said was: 'My Dear ———, the dog I promised you has just died. Hoping these few lines will find you the same. Yours, Solan.

## MY DIARY

#### FISH ON FRIDAY

"Tillie" Snedden—"Do you want a nut Sunday?" "Chic" Harper—"I always have a date for Sunday."

"Mike" Mazzula (in Columbus) - "Hello, is this the weather bureau?"

"Uh huh:

"Mike"—"How about a shower this afternoon?"

"I dunno. If you need one take it."

"Xeyretxagsteinpdqtartiek" is the Eskimo word for 'I love you,' which partly accounts for the length of their nights.

#### FOOD FOR THOUGHT

Harold Noaker is going to have the arc light removed from in front Charlie Wilson's residence.

#### LONG, LONG AGO

Lucinda Eversole-"Mother says she can remember when there were less than six

buildings on the campus.

Dorothy Friedley—"That's nothin'. My grandmother says she can remember when the seniors first tried to escape the finals."

Nesbet-"You can't blame a fellow for looking down on a girl who wears fancy peeka-boo hosiery."

> Wagner—"I passed right by my girl today
> And didn't speak. She's mad they say.
> But holy smoke! I didn't know her; She wore her skirts five inches lower.

#### AN EAR FOR MUSIC

Knapp and I went to the movie at Lehr. The organist played a hymn on the pipe organ. Walter thought it was "Dear Old Northern" and stood up. So did I. I'll get him yet!

What is stronger than a mother's love? Nichols—"The smell of spring onions on your girl's breath."

I asked her for her hand and got it on my ear.

Hoffman—"Did you hear about Poulston's clever scheme of making money?" Tracy—"No, how's that?" Hoffman—"Biting wings off flies and selling the flies for currants."

A philosopher once said: "If a man can write a better book, or preach a better sermon, or build a better mouse-trap than his neighbor, the World will make a beaten path to his door."
